Date:April 2nd, 2018

Time: 12:00pm-1pm

Meeting 7

Attendance:

- Aditya Kishan Ankaraboyana
- Yooil Suh
- Ayoola Obi

Accomplishments:

- Nick: Created a new algorithm for selecting songs in search. Alpha release video.

- Kishan: Deployed on heroku, wrote Api reference.

- Obi: Wrote the documentation.

- Yooil: Was away because of emergency for last meeting. Now up to par with the codebase. Worked on a new Player and fixed a few issues for Beta.

Action Items:

- Nick : Decide if db would decrease latency and try to implement that.

- Obi: Help Yooil with the player and have a mock player ready for next meeting.

- Yooil: Have a working player ready by next week.

- Kishan: If db has been designed then create the backend app and try to integrate it. Overlook the player progress and like dislike functionality.
